DETAILED ACTION

Response to Amendment

1. Applicant's amendment received on December 20, 2010 seeks to amend the specification by inserting the passage in page 39 line 15 to page 43, line 3 of Danish Patent Application No. PA 2002 00875 after the paragraph at page 5, lines 24-31 of the instant application being examined. The Examiner will only allow this amendment to be made if it does not include the last sentence of the passage, which is on page 43, lines 1-3, and which states, "Further information about the production and use of quinones can be found in DK PA 2002 00153 and WO 96/31557, which are hereby incorporated by reference." Not only would this sentence be, apparently, an incorporation of essential subject matter by reference to a foreign patent application and a foreign patent, more importantly, it would effectively incorporate by reference an incorporation by reference, incorporate by reference two documents never specifically cited in the original disclosure of the instant application being examined, and, lastly, potentially allow in further removed incorporations by references that may be present in DK PA 2002 00153 and WO 96/31557, if not allow in both the entire Danish application and WO patent. In other words, this sentence is new matter and would allow in more new matter to the original disclosure for the instant application being examined. A newly

filed application should be as complete as reasonably possible, it should not rely on chains of incorporation of references to be enabled.

***Status of the Objections and Rejections pending since the Office action mailed on
July 20, 2010***

2. All previous objections and rejections are withdrawn.

Claim Objections

3. Claim 1 objected to because of the following informality: there appears to be a period (".") just after compound XVII, which is before the end of the claim. Appropriate correction is required.

Allowable Subject Matter

4. Claim 1 is allowed, but note claim objection above.

Final Rejection

5. Applicant's amendment necessitated the new grounds of objection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
